Two factor Authentication:

Ec2:

1. Creating an AWS Account

1. Visit the AWS website and click Create an AWS Account.
2. Register using your email ID and verify it.
3. Enter personal details and payment information.
4. Complete phone verification.
5. Select the Basic Support Plan and finish registration.
6. Log in to the AWS Management Console.

2. Enabling Multi-Factor Authentication (MFA)

1. Open Security Credentials in AWS Console.
2. Select Assign MFA Device.
3. Choose Authenticator App.
4. Scan the QR code using your mobile.
5. Enter the verification codes and click Add MFA.
